

1309-1

On location with Janice Berkebile as she designs wire wrap blooms.

Bloom!

Out of the wire bursts an organic 3-D wire blossom pendant.
Form the petal frame and weave the base with basketweave.
Vine up the stem and sprout leaves around the bloom.
Texture a sheet copper lily pad to give the bloom a background.
Incorporate the perfect focal bead.
Watch each pendant unfurl as it takes on its own blossomy character!
