# beads baubles and jewels

## 1309-1 Inspired by Gardens & Flowers

Gardens, and flowers in particular, can be a source of ideas for everything from color combinations to texture to using botanical beads in your designs.

Some of Katie's favorite flower beads

Clockwise from top:

Pressed flower pendants and links made by Theresa Dart feature real botanicals inside, [www.lilystudios.net](http://www.lilystudios.net).

Czech glass flowers and leaves from John Bead Corp. are available in a wide variety of colors, [www.johnbead.com](http://www.johnbead.com).

Colorful ceramic daisies and pinwheels are handmade by Jennifer Heynen, [www.Jangles.net](http://www.Jangles.net).

Each lampworked glass flower made by Stephanie Sersich is a bold, unique work of art, [www.sssbeads.com](http://www.sssbeads.com).

Make a quick pair of earrings

For each earring:

1. Cut two 1"-2" pieces of small cable chain.
2. Pass a head pin through a 6mm peridot bicone and make a wrapped loop to attach it to the end one piece of chain.
3. Pass a head pin through a 6mm aquamarine bicone and make a wrapped loop to attach it to the other piece of chain.
4. Open a beading hoop and slide the following onto the center of the hoop (back to front): a clear Bead Bumper™, a 4mm round peridot crystal, the top link on both chains, a lampworked flower bead, 4mm crystal and another Bead Bumper.
