STEAM PUNK RESIN PENDANT – Kristal Wick

Materials needed:

Katydid's bead frame
Variety of miscellaneous tiny watch part
20 16mm flat black beads
22 size 6 seed beads
Antique brass chain
2 crimps
Lobster clasp
Beadalon beading wire
Gel du Soleil resin
UV lamp
Toothpicks
Crimping pliers
Chain nose pliers
Wire cutter

Instructions:

1. Cut beading wire and string through beadframe.
2. Fill bead frame with clock parts.
3. Using a toothpick, carefully place drops of resin on top of watch parts building a design you like.

4. UV cure resin according to manufacturer's directions.
5. String elements onto beading wire, crimp, leaving a small loop on each end.
6. Add chain links to each crimped loop.
7. Add lobster clasp to end of chain link.
