Kristal Wick

Beads, Baubles, & Jewels: Series 1400

STEPS:

1. Paint back of bezel with white acrylic paint so the colors pop. Let dry.
2. Dot little spots of Smooch Pearlized Accent Ink and roll cotton swab over colors to blend them. Let dry between each color application.
3. Add thin layer of resin and cure.
4. Cut out transfer and lay in bowl of water for about a minute. Slide transfer off of paper and dab all water with a cotton swab so it's dry.
5. Lay transfer on top of resin.
6. Add another layer of resin and cure.
7. To dome, add a third layer of resin and cure.
