beads baubles and jewels

1410-1 Texture

This season we're featuring assembling the elements and one of the traits of any component is texture. It's an important part of jewelry design! Here are two easy techniques for creating tactile, high impact jewelry.

Chainmaille creates a lot of texture and interest in jewelry designs. Start out with a simple project, like these earrings. Linked in parallel weave, they're easy to make with Artistic Wire® chainmaille rings from Beadalon®, www.beadalon.com. The charms are made in the USA by TierraCast, www.tierracast.com.

Find more chainmaille projects on episodes #1405 and #1409.

Use beaded chain to create a textured look on necklaces and bracelets. Buy this type of chain pre-made, or create a series of beaded links to make your own.

Quick Links™ beaded chain, ring and clasp from Beadalon®, www.beadalon.com. Flower link charm made in the USA by TierraCast, www.tierracast.com.

Find more ideas for creating texture in episodes #1411 and #1413.
