YOU AREN'T OLD, BUT YOUR BIRTHSTONE IS. MILLIONS OF YEARS OLD, IN FACT.

Before it became a piece of jewelry, your birthstone was formed by an amazing geologic process and hidden deep within the earth. Since biblical times, people have treasured birthstones and associated them with magical powers and lore. Today, many people believe wearing your birthstone can bring good luck and impart certain qualities. Enjoy your special gift from the earth — wear it in good health on your birthday and every day.

Delve into the captivating world of gemstones and explore fascinating exhibits at GIA's World Headquarters and Robert Mouawad Campus in Carlsbad, California, just 32 miles north of the San Diego International Airport.
