

# WRAP BRACELET

By Sandra Younger

Introduced over 6 years ago, this style continues to be a customer favorite! It never goes out of style. These bracelets are so easy to make that you will want one in every color!

## TOOLS AND MATERIALS

- [175'' #20 HEMPTIQUE CORD](#)
- 12 50MM CURVED TUBE BEADS
- 1 CLASP
- 2.5" LENGTH OF EXTENDER CHAIN
- [2 10" LENGTHS WAXED JEWELRY CORD](#)
- 5" LARGE EYE NEEDLE
- 6LB FISHING LINE
- SCISSORS
- [KNOTTY DO-IT-ALL DELUX KIT](#)
- THREAD MELTING TOOL

## HOW TO

Step 1: Set up boards side by side with the smaller one on the left. Place a peg at zero on left board and 16 on right board. If you need a longer bracelet you can place your right peg at 17 or 18. If you are making your bracelet longer make sure to add 12" of cord for every inch you add. Add clips according to the diagram.

Step2: Attach needle with fishing line onto hemp cord.

Step 2: Thread tubes clasp and chain in the following order: 4 tubes, clasp, 4 tubes, extender chain, 4 tubes.

Step 3: Wrap hemp cord, beads, clasp and extender chain around the two pegs as shown in diagram from step one.

Step 4: With waxed jewelry cord tie a tight coil knot at each end. Trim to about 1/4<sup>th</sup> inch on each side and carefully melt ends of coil knot with a thread burner.

Step 5: Remove bracelet from clips and trim excess cord.

It's that easy!

Enjoy your bracelet!

### TIPS

This technique can be used to make an endless number of styles of both bracelets and necklaces. You can use different beads, stringing materials, make it shorter, longer, you can wrap as many times as you like.

Sandra Younger, inventor of The Knotty-Do-It-All, is a pioneer in the art of fast and easy knotted cord jewelry. Her tools and techniques make just about any task related to jewelry making with cord, such as macramé, bead knotting, braiding, coil knots, and moose knots fast, easy, and enjoyable.
